

GARDEN TASKS | JUNE 2019

Most Important Tasks

- Empty all trash cans into the blue dumpster
- Empty all satellite compost bins - take contents to the open compost pile next to the black compost bins

Main Gate Area

- Pick up trash and debris
- Sweep parking lot pavement
- Rake and sweep oak flowers/pollen from gravel and asphalt, and put in compost.

Greenhouses

- Weed inside greenhouses, pick up any trash or broken pots on the ground, coil hoses, label anything that you add with your row number and name. General tidy but be careful not to disturb any seedlings or systems.

General Tasks

- Pick up trash throughout garden (plastic pots, plant name tags, general junk!)
- Remove weeds around the base of Apricot, Cherry and Group Garden tool sheds.

Please remember to.....

- Put the green cart and rolling trash cans back next to the admin shed, this is their home!
- Keep the back gate + path clear. Wheelbarrows or bins cannot block the bike rack, the path or access to the gate.
- Log your hours online, find the link on the 'Gardeners' page of our website.

Thank you for making the garden a beautiful, happy community!
